Mission Statement:

"Proudly serving since 1881, the Wellington Community Fire District protects the citizens and property of our six communities, by providing professional, courteous, and cost-effective fire prevention, protection, and emergency services."

Now one hundred and thirty-four years old, the Wellington Community Fire District has grown significantly since its meager beginnings in the latter half of the 19th century. The station is now manned a majority of each day, new training requirements emerge annually, and the volume of calls has increased dramatically. Yet it remains important to remember how and why the department was created. The following story was written by Terry Mazzone, who served on the department for seventeen years, while working locally for the Wellington Enterprise.

The First Fire Call

(From the July 30, 1981 Wellington Enterprise)

by Terry Mazzone

The newly organized Wellington Fire Department was behind the eight ball when it received its first call near midnight on Sunday, January 30, 1881, nine days after the Fire Department held its first organizational meeting.

The first bell was ringing in the night air. The fire, which had started on the west side of the business district, was raging.

Where was the fire engine? It was on the second story of the Doland Carriage Shop. It didn't have any wheels on it and the brakes and tongue had been removed from the horse-drawn fire engine in order to get it into the elevator and to the second floor, where they planned to paint the name of "E.G.

Fuller" on the vehicle, in honor of the mayor.

Within 20 minutes after the bells started ringing, the firemen had replaced the wheels, tongue and brakes and the engine was ready for use.

The Fire Department's first blaze destroyed the A.H. Palmer Building, which housed the S.E. Peters grocery store and Mrs. Palmer's dressmaking shop, the Bunce Candy Stand and the Wooley Hardware store. The Post Office Building was nearly razed. All movable equipment was removed from the Wellington Enterprise's plant and stock was taken from Wight Jewelers.

Wellington Community Fire District - 2014 Year in Review

By Chief Mike Wetherbee

Department Profile:

The Wellington Fire District provides emergency and non-emergency response services to the Village of Wellington and the townships of Wellington, Brighton, Huntington, Penfield, and Pittsfield. The district covers approximately 125 square miles and remains one of the largest such districts in the state of Ohio. Our governing body consists of a Trustee from each township served, as well as, a member of the Wellington Village Council. The 2014 board members included President Chris Stanfield of Brighton Township, Vice-President Jeff Hyde of Wellington Village, Trustee Mark Diedrick of Pittsfield, Trustee Lloyd Gordon of Penfield Township, Trustee Jim Barbor of Wellington Township replaced by Trustee Fred

Pitts, Trustee Walter Rollin of Huntington Township and Fiscal Officer Vanya Hales.

The Wellington Fire Department was first formed in 1881. In 1970, Wellington Fire District, the first of its kind in the State of Ohio was formed after local and state politicians lobbied for legislation allowing the village and the five surrounding townships to form a joint fire district. It must also be added that former village solicitor Harrison Comstock played an instrumental role in the formation of this district.

Personnel:

Chief Mike Wetherbee, in his third year, worked with two Assistant Chiefs, Jim Clark and Bill Brown. Utilizing the services of three Lieutenants, Troy Pitts, Greg Frenk, and Chad Regal, the district was led by a command staff of these six officers. By late year 2014, the roster dropped to 29 members, as the Board of Trustees accepted three retirements. Firefighter Casey Moore, an 18 year veteran, along with Firefighter Frank Marley, a 25 year veteran left the department, as did Assistant Chief Jim Clark with 37 years of service. The District bid farewell to 80 years of experience, reducing the average years of experience of the members to 12.6. The roster at this time ranges in age from 22 to 68, with 40.5 being the average. With the retirement of Assistant Chief Clark, the district approved three promotions in the command staff. Assistant Chief Bill Brown moved to 1st AC, making room for Lieutenant Troy Pitts to be promoted to 2nd AC. Firefighter Ethan Little, a thirteen year veteran received a promotion to Lieutenant. One final promotion saw Firefighter/Paramedic Derick Oswald accept the position of Department Medical Officer, a newly created position that will focus on training and patient care by our personnel.

Funding Information:

The Wellington Fire District is funded through a 2.5 mil property tax levy which revolves on a 5 year cycle. The district is entering its fifth and final year of the cycle, with the next levy campaign occurring in May of 2015. The levy generates approximately \$696,000 annually, and is supplemented by grants that are actively sought by the District. An example of one of the grant sources is FEMA/AFG. While not a guaranteed source of revenue, the district has had past success in receiving these additional funds.

A short / medium / and long term capital spending plan was created in 2014 by Chief Wetherbee. The plan, spanning 17 years and three levy cycles to the year 2030, outlines necessary capital expenditures such as station improvements, and equipment and apparatus replacements.

Capital Improvements:

Repairs and improvements to the exterior brickwork and the deteriorating apparatus bay floors at station #2 were again considered, then tabled. Focus was placed on replacement of deteriorating components on our major pieces of apparatus. The district is also reaching expiration dates, which requires replacement, of various pieces of safety equipment. Expired Self-Contained Breathing Apparatus bottles were replaced according to schedule, as well as the purchase of new turnout gear for half of the roster. In 2015, as the district begins preparation for its next levy cycle, short, medium and long term plans will be discussed regarding the next replacement of apparatus and station renovations. As always, minor maintenance and upgrades to facilities and apparatus are constant.

Notable Incidents / Activities for 2014:

Chief Wetherbee traveled to Columbus in January to provide testimony to the House Transportation, Public Safety, and Homeland Security Committee in favor of Senate Bill 106. After close to a year on the House floor, the Bill was passed and renamed the Allan H. Anderson Jr. Bill. Governor Kasich signed the Bill into Law on December 19th with Chief Wetherbee, Al and Cathy Anderson, and Buz's nephew Norwich Firefighter Josh Riggs in attendance.

In the midst of a bitter January cold wave, the fire department responded to a basement fire at a foster Road residence. Despite near zero temperatures and brutal west winds at 30 mph, the blaze was brought under control in 45 minutes. The home suffered moderate damage, but was not a total loss.

Department water rescue personnel responded numerous times in 2014 to incidents both in the district as well as the county. Flooding caused by thawing ice and periods of heavy rain sent swiftwater personnel on rescues in Vermilion, Carlisle, North Ridgeville, and a few of our "usual" areas, while calls for assistance kept divers busy in Eaton Township, Avon, and Lorain.

On February 13, fire district officers were called to check a house that had been struck by a vehicle. The house, and vehicle both sustained heavy damage, however, there were no injuries. Ironically, the driver involved, had just crashed and totaled another car at SR 18 & West Road not even 24 hours prior to this incident.

February 20, a fire that started as a chimney fire caused extensive damage to one room of a Huntington Township home. Firefighters had the fire under control in 21 minutes.

On March 4,crews responded to a fully involved garage fire in Pittsfield Township. The building, two vehicles and a maple syrup making operation were a total loss. Firefighters were assisted by Oberlin, Camden, and Wakeman. Two exposures were protected on another particularly cold evening.

On April 22, crews responded to a reported MVA on SR 18 West of the Village. Upon our arrival, it was determined that a pedestrian was struck by a vehicle while changing his tire in the dark. The victim sustained serious injuries and was flown to MetroHealth in Cleveland.

Chief Wetherbee was invited to attend the American Petroleum Institute's Annual Conference in San Antonio in April to give a presentation regarding the January 2012 gasoline pipeline rupture. As a result, The Association of Oil Pipelines also requested a June presentation in Houston. The trips were recommended by Sunoco Logistics due to the efficient and effective response of our District and Village during their pipeline emergency.

May proved to be a busy month for firefighters. On May 2, crews responded to an accident at SR 18 & Quarry Rd. The accident involved two vehicles with six critical patients, one of which was ultimately a fatality. The scene, a mass-casualty incident required multiple ambulances, 4 lifeflight helicopters, and lengthy extrication. Fire crews did a fine job working and controlling an extremely chaotic scene. Also in May, an elderly gentleman fishing with his son suffered a massive heart attack and fell into the upground reservoir. Within 7 minutes of the call, firefighters Dumke and Knapp had located the victim and had him out of the water. The patient was revived, and flown to MetroHealth were he passed away early the next morning. In what was a rather odd call, firefighters responded to a call in Brighton involving a horse and buggy. The buggy's occupants apparently jumped from the vehicle after the horse had spooked and took off uncontrolled. The horse and buggy, minus the driver was apprehended a couple miles south on SR 511. As it turned out, the horse didn't have it's bridal and bit hooked up properly. The horse and all occupants were treated and released.

On May 27, the District was notified that their ISO Classification had been lowered to a 4/4Y from a 5/10. This new classification, basically a grading of the fire district and it's capabilities, will help lessen the amount of insurance many district residents pay. The re-classification was a result of an audit performed earlier in the year by ISO. (Insurance Services Organization)

District Firefighter Melissa Fuquay attracted local and state attention after competing in the Ohio Police and Fire Games this summer. Melissa competed in Raw Powerlifting, bringing home medals for overall best female lifter for all weight classes, and first place in the deadlift for her weight class, where she shattered the record by close to 40 lbs. Her deadlift of 240 lbs. caught the attention of WKYC in Cleveland who came out and aired a story on her accomplishments.

June brought two of the rather unusual calls of the year. On June 3, crews responded to Findley State Park at 4 in the morning to rescue a fisher man who had fallen back at the dam and was injured. The department's APV was used to extricate the patient to an area where he could be loaded on Lifeflight. On June 7, crews responded to Huntington Township to land a helicopter for a gentleman "struck in the head by a sword". As it turned out, the man was a contestant in the medieval games being held at the Ukranian Club. The injury wasn't quite as bad as one would imagine.

On July 14, crews responded to a structure fire on Forrest Street in the Village. The attic area of the house was full of smoke, and upon investigation it was found that a twelve year old and his 7 year old cousin were smoking and dropping the cigarette butts down into the wall. Tragedy was averted due to the fire never fully igniting. The juveniles were consulted by the department's Juvenile Fire Setter personnel.

On September 15, crews responded to a reported MVA on US 20. While enroute it was advised that a subject had lit himself on fire and stepped in front of a tractor trailer. Upon our arrival we found EMS tending to a male subject who had previously exited his vehicle and jumped in front of a tractor-trailer. He then got up, went back to his car and consumed gasoline, poured some over his body and lit himself on fire. It was later learned that the subject only suffered minor injuries, and that he had confessed to the murder of a woman in Cleveland just prior to the incident.

Spencer resident Shane Robinson and wife Brittney continued to accept recognition for their selfless actions on the evening of September 2, 2013. The Robinson's were honored by the State Fire Marshal in September at the Ohio Fire Academy, receiving the Civilian Hero's Award. In November, they were presented the prestigious Carnegie Medal of Heroism. The Medal is presented to individuals who risk their life to save another and was established by Industrialist-Philantropist Andrew Carnegie.

On November 19, crews responded to a garage fire in Huntington Township. Crews made entry and extinguished the fire quickly. An investigation revealed that what appeared to be a garage was actually set up as an apartment. The fire, caused by an improperly installed wood burning stove caused minor fire damage but considerable smoke, heat and water damage.

On December 18, firefighters responded to a Brighton Township home to find a working room and contents fire. Crews were able to quickly knock the fire down and make entry to extinguish the fire and save the structure. Again, fire damage was limited to the living room, but the home sustained heavy heat, smoke and water damage. A 19 year old woman, was home sleeping at the time of the fire. She escaped and was transferred to the hospital for smoke inhalation.

Services Provided:

The Wellington Fire District, it's Board of Trustees, Officers, and Firefighters take pride in serving our community. The district provides response to any and all incidents within our jurisdiction, as well as, mutual aid to our surrounding communities. Incidents include the obvious fire calls, motor vehicle accidents, first responder calls, and odor complaints to name a few. The district also responds to calls such as animal rescues, any type of water incident, missing person searches, and weather related incidents. The district provides public and private fire prevention and education throughout the schools, daycares, area businesses and industries, and various groups such as Boy Scout and Girl Scout troops. In 2013 our firefighters continued fire public relations in other cities when their own fire departments refused. The district attends many functions and annual meetings, such as Kiwanis, Lorain Medina Rural Electric, Wellington Women's League, and the annual senior citizens luncheon, to present various lectures.

Wellington Fire District remains committed to conducting fire inspection and preplanning activities throughout the businesses and industries in our service area. These actions help lessen the risk of incidents, and prepare not only the occupants, but also the firefighters should an emergency arise. New construction, renovation and change of occupancy to existing buildings are also monitored to ensure safety, and adherence to the codes. "The Wellington Fire District is proud to serve and support the citizens of our communities."

Mission Statement

"Proudly serving since 1881, the Wellington Community Fire District protects the citizens and property of our six communities, by providing professional, courteous, and cost effective fire prevention, protection, and emergency services."

Wellington Fire District Board of Trustees

By Lt. Chad Regal

The Wellington Fire Department has been protecting and serving the community since 1881. In the 134 year history there have been many individuals that have served on this department. Along with these individuals there is another small group of individuals that makes this department tick, the board of trustees. The board of trustees is comprised of six elected officials from the Village of Wellington and the townships of Brighton, Huntington, Penfield, Pittsfield and Wellington. Along with those individuals they are joined by a fiscal officer that keeps all the financial affairs in order. The board members that served the community in 2014 are as follows:

- Representing Brighton Township is Chris Stanfield. Chris represents approximately 915
 residents. Chris has served on the Fire District board since 2006 and currently is serving his
 second term as the Board President.
- The representative for the Village of Wellington is Jeff Hyde. Jeff has served on the Fire Board since 2008 and is a Village Councilman, serving nearly 5,000 residents. Jeff serves as the Board Vice President.
- Wellington Township which has approximately 1,420 residents was represented by Jim barbor in 2014. Following Barbor's resignation, Fred Pitts replaced Jim in 2014. We would like to thank him for his dedication and service to the Wellington Fire District.
- Walter Rollin represents Huntington Township. Walter has served on the Fire Board since 2006. Walter also serves as a Huntington township trustee as well. Huntington has nearly 1,300 residents in the township.
- Since the early 90's Mark Diedrick has served on the Fire Board. Mark is the Pittsfield Township representative and is also a trustee for Pittsfield Township. Pittsfield is comprised of nearly 1,500 residents.
- Lloyd Gordon represents Penfield Township a community of approximately 1,800 people.
 Lloyd is also a Penfield Township trustee. This was Lloyd's second year as a member of the Wellington Fire Board of Trustees.
- Since 2002 Vanya Hales has served as the Fire District's Fiscal Officer. Vanya keeps track of all the finances the Fire District incurs, along with keeping the minutes from the Fire Board meetings held the first Wednesday of each month.

Evolution of Our Volunteer Fire Department and Joint Fire District

Note: Mr. Comstock served the Wellington Fire District as its clerk for twenty-one years and was vital in the transition to a fire district.

By Harrison Comstock

For many years it was financially impossible for the village or for any single township surrounding us to have its own fire department even though it was manned by an all volunteer staff or dedicated people. The answer came early on

that the Village of Wellington and the Townships of Brighton, Huntington, Penfield, Pittsfield, and Wellington would go together to provide this important service.

The vehicles were based in the village since it was the central point and the volunteers were employed by business and industry located here. The Village paid for the operations and the purchase of equipment initially but semi-annually would submit a bill to each of the other participants for their prorated

Brighton Township: Chris Stanfield (President)
Huntington Township: Walter Rollin
Penfield Township: Lloyd Gordon
Pittsfield Township: Mark Diedrick
Wellington Township: Jim Barbor/Fred Pitts
Wellington Village: Jeff Hyde (Vice President)

Fiscal Officer: Vanya Hales Legal Council: Kim R. Meyers

share. This system worked for many years and was accepted by all residents. During this period the trucks and equipment were rather limited and a working pumper could be purchased for a reasonable price as it was a fairly simple apparatus. Hose and ladders were added to an existing truck body painted red and sent out for service.

As time went on, however, the trucks became much more sophisticated, complicated and necessarily more expensive. The costs increased to such an extent that none of the participating bodies could afford them from their limited general funds.

It was then that our local chief, Bill Weber, and several others approached Congressman Don Pease who was at that time our representative to the Ohio General Assembly. Through all of their efforts a law was enacted to permit the formation of a Joint Fire District as a separate and distinct taxing authority with the tax base being that of all those who joined in.

Resolutions were adopted by all named governing bodies to form the Wellington Community Joint Fire District and I believe this was the first one formed in the State of Ohio. Each participating unit has a representative on the Board of Trustees of the Joint District and their duties and methods of operation were established by vote of that body in accordance with the new laws.

The District, however, had no money, no budget and little actual knowledge of what was to be expected of it. This was organized during the period of time when Federal Revenue Sharing was taking place and each body had some of these funds on hand to be used at their discretion. Each unit paid into the District \$1,000 from their Revenue Sharing money to provide some operating funds until such time as a formal budget could be adopted, and an annual budget prepared for the coming year. Once this latter was completed the Lorain County Auditor's office was contacted to determine what a proper levy amount would be required to provide the funds necessary. This levy question was then presented to all voters in all the member areas along with information on what the funds would be spent for in the next succeeding five year period.

One of the provisions of the new law regarding the proceeds of a levy raised in this manner allows the Board of Trustees to borrow a percentage of the revenue from that levy in anticipation of its receipt. As soon as the electorate gave its approval of the proposed levy a loan was obtained to provide the operating funds for the next succeeding period of time. This same procedure continues today with the presentation of a proposed levy each five years the District remains as a separate taxing body. At the same time these governments were demanding more and more of our local personnel they were reducing the services of the State Fire Marshal and others for local problems, inspections and investigations. It also required many more hours of required training for all the personnel of the department and as the result we now have two paid people to carry out the everyday operations while we still rely upon a dedicated staff of volunteers who devote many hundreds of hours to the work of the department and to their own skills improvement.

It takes a well organized and fully trained organization to do what these people do for us and I am sure we are all grateful for all they do and for the understanding employers of these persons who permit them to leave their employment when duty calls. The entire Wellington area can well be proud of the department it now has and of the service they provide, sometimes at the expense of missed suppers, kid's ball games and family picnics and otherwise quiet family times while they attend class to learn of new developments not only in fire fighting but in dealing with chemical spills and all the other situations declared to be emergencies.

Wellington Firefighters Association's Year in Review 2014

By Firefighter Derick Oswald, Association Treasurer

The Wellington Firefighter's Association is a 501-C3, non-profit organization, formed in 2006. The group raises money for local charities, purchase of fire prevention supplies, as well as firefighting and dive equipment. In fiscal year 2014, the Association focused on replacing and acquiring dive team equipment.

The Firefighter's Association normally holds one major fund raiser each year. The past six years, a "Night at the Races" has been held at the Lorain County Fairgrounds. The following documents many of the activities of the Firefighter's Association in 2014.

• 2014 Night at the Races earnings for the Association was \$13,477

The following are some of the purchases and donations that the association was responsible for in 2014:

- Wellington Fire Department Fire Prevention purchases:
 - o \$1,843.00 for fire prevention materials
- Fire Prevention Week Poster Winners
 - o \$407 to purchase t-shirts for each of the winning posters
- Scholarships
 - Al "Buz" Anderson \$1000 scholarship awarded to Wellington High School Senior Shelby Cole.
- Wellington Firefighters Chili Cook-Off Team
 - o Team participated in the K96 Firefighters chili cook off in Sandusky
 - o Team has won numerous other awards for their chili
 - o \$2,070.50 donated to Well-Help, Inc.
- Relay for Life Sponsorship
 - o \$1000 donation
- Miscellaneous Donations
 - o Donation towards the Wellington Community Auditorium
 - o Elyria Township FD memorial brick, \$50
 - o Drew Guyer Foundation, \$100
 - o Purchased trophies for Lorain County Fair, \$111
 - o Wellington Eagle Riders, \$100
 - Ruggles-Troy FD donation, \$100
 - o Adopted a family for Christmas (Well-Help, Inc.), \$343
 - o Keiser sled construction, \$283
 - o Dive team equipment, \$1,936
 - Autism Speaks donation, \$100

- Smoke detectors, in conjunction with Wellington Women's League, \$2,112
- Landry Cole donation, from annual family Christmas party, \$1,000
- 6th Annual Firefighter Chili Cook-off
 - o In November, the Firefighter's Association continued the challenge of sponsoring a chili cook-off, with the help from area departments and local chefs. The benefactor of the evening was Well-Help, Inc. Held at the Wellington Eagles club, the evening was filled with plenty of chili, giveaways, live music and camaraderie.
 - O When the evening was completed, the Firefighter's Association gave Well-Help, Inc. a check for \$1,440. While the majority of the Association was involved in some aspect, the evening was a huge success. Several hundred people visited throughout the evening, sampling chili and supporting a great cause.

2014 Wellington Firefighter's Association Charitable Donations: \$6,281.50

Since 2010, Charitable Donations: \$43,259

Thomas R. Ropchock Award Recognizing the Wellington Firefighter of the Year

This award is presented to the firefighter who best exemplified the qualities of our mentor and friend, Captain Thomas R. Ropchock. The award has been chosen by the members of the Wellington Firefighter's Association, in recognition of leadership during training and on the fire ground; sacrifices of time away from family; devotion and commitment to the Fire District; and for setting a positive example for others to follow.

The 2014 Thomas R. Ropchock Firefighter of the Year award has been awarded to Firefighter Jason Dumke. Jason has been a member of the department since September 2013.

In addition to his firefighting duties, Dumke, an Afghanistan War veteran with the United States Marine Corps, is also an EMT, and is currently working to obtain his paramedic certification.

During 2014, Jason was active in the department's shift coverage program and also received a "Medal of Valor" for his part in a water rescue at the Wellington Reservoir.

When not at the fire department, Jason and his wife Mandy are proud parents of three children.

Section 7: Finances

Ţ	

Current Financial Status

By Vanya Hales, Fiscal Officer

It is anticipated that for fiscal year 2015, the current 2.5 mill levy and the District's investments will generate \$683,500. The current operating levy costs the owner of a \$150,000 home approximately \$115 annually, the levy funds are used for vehicle maintenance, salaries of full-time and part-time employees, building maintenance, and training.

	2009	2010	2011	2012	2013	2014	2015 (estimate)
		г.	Γ				
Revenue:	\$701,431	\$740,265	\$766,666	\$790,350	\$714,593	\$711,548	\$683,500

Building and Grounds Report

By Assistant Chief Troy Pitts

During 2014, the building and grounds committee researched the replacement of the cracking and deteriorating concrete in bays 1-3 of station two. Along with replacing the floor it has been determined that the brick veneer on station two will need to be repaired in numerous areas, as it has begun to pull away from the structure.

After bids were received and reviewed to replace the floor it was decided to hold off on both projects at this time, and review in 2015. The cost of the project will be approximately \$26,000-approximately \$40,000. The money

that was allocated to do this project will be utilized to purchase much needed turnout gear for fifteen of our fire fighters.

Other than reviewing the floor and brick work; normal routine maintenance took place throughout the year.

Fire Levy Sum	nmary
Millage	2.50
Length	5 years
Generates Annually	\$696,209
Annual Cost for \$100,000 h	ome\$76.56
Annual Cost for \$150,000 h	ome\$ 114.88

Section II: Jue Prevention

2014 Fire Prevention Overview

By Assistant Chief Bill Brown

Fire prevention remains one of the most beneficial functions of any fire department. Whether performing fire safety inspections or simply teaching a kindergarten class about the importance of fire safety, the benefits are immense to all parties involved. The Wellington Community Fire District Fire Prevention program is comprised of two distinct activities, public education and fire safety inspections, both of which are important to the safety of the community, but also to the firefighters.

The District's Fire Prevention Program has four distinct parts, each important in its own way. Public Education, Fire Safety Inspections, Car Seat Safety Checks, and the Juvenile Fire Setters program reach different segments of our service area, with some overlapping depending upon age.

Public Education

Annually, Wellington Community Fire District personnel routinely spend countless hours teaching to students, senior citizens, scouting groups, and others. In 2014, 252 hours were dedicated to educating the public on fire safety. The following locations were sites of fire safety talks, demonstrations, and visits:

Wellington Country Preschool Westwood Elementary McCormick Middle School Wellington High School Step-by-Step Preschool Findley State Park Lorain County Metro Parks Weber Healthcare St. Patrick's Manor Wellington Senior Citizen's Office of Aging (SSO) Lorain County JVS Firelands Area Council (BSA) Relay for Life

One of our most valuable fire prevention teaching tools is a fire extinguisher trainer. This unit was purchased with funding through FEMA's Assistance to Firefighters Grant program. Fueled by propane, the unit is controlled by fire personnel, allowing the students to "fight" a wastebasket fire, or other included props.

The training unit adds a great deal of safety to the training program and enables hundreds of students to participate for little cost to the group. The unit was utilized to teach several hundred students, teachers, bus drivers and healthcare workers in 2014.

The following personnel continue to help further our message by providing quality fire safety programs to our citizens:

FF Derick Oswald	7
FF Ken Knapp	7
Dave Roser	6
AC Jim Clark	4
FF Dave Crawford	3.50
FF John Clawson	2.50
FF Jason Dumke	1.50

Since 2007, five members of the department have distinguished themselves in the area of Fire Prevention and Public Education. These members have accounted for 43% of the total hours (2113 total hours) in the eight year period and their dedication to educating the general public is evident.

AC Bill Brown	287.25 hrs
Chief Mike Wetherbee	174 hrs
FF Derick Oswald	140.75 hrs
FF Ethan Little	133 hrs
Lt. Troy Pitts	94.25 hrs
AC Jim Clark	84.50 hrs

Fire Safety Inspections

The elimination of hazards which are prone to causing fires is the primary goal of the Wellington Community Fire District's Fire Safety Inspection program. Annually, Certified Fire Safety Inspectors visit local businesses, factories, and schools to perform inspections which focus not on punitive measures, but corrective measures.

Each of the four schools in the district, as well as the industrial complexes, and many of the retail locations receive at least one visit from an inspector annually. In 2014, a total of 85 inspections were completed by one of the districts seven inspectors. Not included in that total are the several hundred inspections that are completed at the Lorain County Fair in August.

Car Seat Safety Checks

For several years, a growing trend had developed in our service area. Parents who were in need of a child car seat inspection/evaluation were unable to access this valuable service without traveling to Elyria. In response to this problem, Firefighter/Medic Derick Oswald participated in a forty hour certification course, becoming the Wellington Community Fire District's first Child Car Seat Safety Technician in May of 2008.

Throughout 2014, Firefighter Oswald, aided by other personnel, conducted three "drive-by" inspections, one in Grafton Village. Additionally, Firefighter Oswald met on numerous other occasions with concerned parents to inspect/install their child safety seats.

	2008	2009	2010	2011	2012	2013	2014
Cars Inspected:	23	38	38	31	49	38	20
Seats Inspected:	28	52	51	38	44	33	23
Seats Replaced:	5	14	23	15	6	5	3

Again, the Wellington Community Fire District's continued efforts to provide quality programs, with involvement from the community, insure safety of the residents.

Juvenile Fire Setters Program

The purpose of the District's Juvenile Fire Setters Program is to identify children at-risk by looking at how and why the fire happened and to recommend prevention programs for fire setters who were motivated by accident, curiosity, or experimentation.

This program, which has been in place since 2008, can be used in conjunction with local law enforcement issues, the juvenile court system, or by direct referral by a concerned relative. The program, headed by Assistant Chief Bill Brown and Firefighter/Medic Derick Oswald is not only available to residents of the Wellington Community Fire District, but also to surrounding departments who may not necessarily have the resources for such a program. The goal of the program is to help evaluate, educate, and recommend services that may stop fire setting behavior and identify any related problems the juvenile may have.

Technical Rescue Recap

By Lieutenant Greg Frenk

The Wellington Fire District is called on to provide rescues other than those related to fires or accidents. We as a fire and rescue service must be prepared for many types of calls such as high angle rope rescue, water rescues like ice, diving and swift water, confined space rescues, trench rescues, and hazardous material rescues.

In 2014 WFD held a Haz-Mat tech class at our facility that we opened up to our surrounding areas. We trained 7 of our personnel to the technician level bringing our number of tech level personnel up to 8. A.C. Bill Brown, Lt. Greg Frenk, Lt. Ethan Little, FF Tim Polen, FF Steve Higgins, FF Darrin Lewis, FF Dave Roser, and FF Ken Knapp. Lt. Ethan Little is our department representative on the Lorain County Haz-Mat team. He attends monthly training and is our department advisor on these incidents.

We have two personnel trained in confined space rescue Lt. Greg Frenk and FF John Clawson. Confined space rescue is an often overlooked discipline. We have a lot of agricultural silos and grain bins that present very dangerous environments and are considered confined spaces. Lorain County has a USAR team that is trained and can be called on for help at any special rescues like confined space rescue, trench rescue, rope rescue and urban search rescue.

John Clawson joined the County USAR team in 2014 as our department representative. Due to his busy work schedule though, John has had to resign from the team. John was very impressed with the training these men and women did and enjoyed his time on the team.

Gordy Lent has continued to lead our department water rescue teams. We have been undergoing some changes in our team members and their abilities. WFD has five divers at various levels of training. A.C. Troy Pitts, Lt. Greg Frenk, Lt. Ethan Little, FF Gordy Lent and FF Mike Barlow are our divers. We have four rescue divers, A.C. Pitts, Lt. Frenk, FF Lent and FF Barlow who got his certification this past September, and two certified ice divers, Lt. Frenk and FF Lent. In February 2014 Lt. Frenk got certified in ice diving. We also have two very dedicated and competent dive tenders FF John Clawson and FF Dave Roser, and two tenders in training FF Dave Crawford and FF Tyler Honoshofsky.

2014 saw multiple dive rescue calls for our personnel. We responded to a car in a pond off of route 480 with unknown occupants. We responded to a man who fell into the reservoir while fishing. At this call we had two of our newer FF's Jason Dumke and Ken Knapp respond first on scene and between the two of them get the man out by themselves within 7 minutes and begin CPR. They did an amazing job and will be awarded honors for their heroism. We responded to Avon for a missing man and helped recover his body in a pond. We were called on to set up the sonar unit to look for a missing man in Lorain. We also try to help our residents when possible. A.C. Troy Pitts led an effort to recover lost building supplies in a pond due to high wind at the Ziegler's farm pond. He also located a dry hydrant at Waldens pond on New London Eastern Rd. to see if we can fix it for her.

The WFD has 18 trained ice rescue personnel with Gordy Lent becoming a certified instructor.

The WFD has six swift water ops personnel, A.C. Bill Brown, Lt. Troy Pitts, Lt. Chad Regal, FF Bryan Hamer, FF Dan Shinsky, FF Steve Higgins and two swift water techs, Lt. Frenk and FF Lent. 2014 saw three swift water calls for our firefighters. One call was in North Ridgeville during heavy flooding where evacuations were needed. The second was in Carlisle Township for two males floating down a river appearing distressed. The third was in our district for a young girl trapped in high water on a Jones road bridge.

The WFD has three trained rope rescue ops personnel, Lt. Troy Pitts, Lt. Ethan Little, and FF Dan Shinsky and 5 rope rescue technicians, A.C. Bill Brown, Lt Greg Frenk, FF Gordy Lent, FF John Clawson, and FF Steve Higgins. There was one call at Findley State Park where someone had fallen down and gotten hurt at the bottom of their lake spillway and needed rescued.

The time, training, and dedication of these firefighters is greatly appreciated by WFD. These skills are not used often but are very specific in nature and require constant training to stay proficient. Beyond benefitting just the WFD many of these men are part of and enhance Lorain counties Dive Team, Haz-Mat Team, Swift Water Team, and USAR Team.

Wellington Fire District Training and Activity Summary
