The First Fire Call

(From the July 30, 1981 Wellington Enterprise)

by Terry Mazzone

The newly organized Wellington Fire Department was behind the eight ball when it received its first call near midnight on Sunday, January 30, 1881, nine days after the Fire Department held its first organizational meeting.

The first bell was ringing in the night air. The fire, which had started on the west side of the business district, was raging.

Where was the fire engine? It was on the second story of the Doland Carriage Shop. It didn't have any wheels on it and the brakes and tongue had been removed from the horsedrawn fire engine in order to get it into the elevator and to the second floor, where they planned to paint the name of "E.G. Fuller" on the vehicle, in honor of the mayor.

Within 20 minutes after the bells started ringing, the firemen had replaced the wheels, tongue and brakes and the engine was ready for use.

The Fire Department's first blaze destroyed the A.H. Palmer Building, which housed the S.E. Peters grocery store and Mrs. Palmer's dressmaking shop, the Bunce Candy Stand and the Wooley Hardware store. The Post Office Building was nearly razed. All movable equipment was removed from the Wellington Enterprise's plant and stock was taken from Wight Jewelers.

Mission Statement:

"Proudly serving since 1881, the Wellington Community Fire District protects the citizens and property of our six communities, by providing professional, courteous, and cost-effective fire prevention, protection, and emergency services."

Wellington Community Fire District - 2007 Year in Review

Department Profile

The Wellington Community Fire District provides emergency and non emergency response services to Brighton, Huntington, Penfield, Pittsfield, Wellington Townships and the Village of Wellington. Our service area encompasses nearly one hundred and twenty five square miles. We respond from two stations with a fleet of nine apparatus and serve a population of about 13,000.

The Wellington Community Fire District, formed in 1970, was the first of its kind in the State of Ohio. Prior to that, the Village of Wellington provided fire and emergency services not only to the Village, but also to the surrounding townships by written contract.

Fortunately, in 2006, the fire district again received FEMA's Assistance to Firefighters Grant. The \$18,000 that this grant produced, funded training programs and portable audio equipment for training and fire prevention activities. The grant is to be administered in the budget years of 2007-2008. On December 7, 2007 we received notice that our 2007 FEMA Assistance to Firefighters Grant was also approved. Again, since an emphasis on training is the cornerstone of our department, the \$11,000 grant will be used to train our personnel in Technical Rope Rescue training, and provide much-needed equipment for such activities. The grant will also be administered in the 2007-2008 budget year.

Our most important asset is our personnel. Our members have been willing to increase their training levels from the Volunteer level to the Career level and included with that they also maintain EMT certification status at various levels.

Structure Fires

In 2007 we encountered some of the most devastating structure fires and property losses in the 126 year history of the Wellington Community Fire District. On Monday, August 13, 2007, a large portion of the Wagner/POV building on Depot Street was lost to fire. The company ceased operations at the 127 year old warehouse on Depot and Main streets in January 2007. Built in 1880 for the Horr-Warner Company, this structure served various tenants during its life span. Fortunately we were able to contain the fire to the building of origin with the assistance of our mutual aid neighbors. Three 100' aerial apparatus from Wellington, Oberlin and Amherst Fire Departments battled the fire, as well as firefighters from seven different communities. We also utilized a very effective water shuttle operation to help supply the tremendous amount of water needed.

On Monday, November 12, 2007, a fire of historical proportions at the Hemlock Cottage warehouse on DeWolfe Street utilized 142 personnel from 19 communities. Due to inadequate water supply to fire hydrants in that area, our personnel had to put together one of the areas largest water tanker shuttles for fire suppression. Property losses were near \$900,000. Neighboring exposures and three automobiles were damaged by the tremendous heat. The structure/warehouse provided storage for large quantities of furniture for Hemlock Cottage, and housed Will-Do packaging, which packaged sponges for retail. In both the POV fire and this fire, the district's newly purchased 100' aerial ladder made a significant difference in both of these fires.

Training

During the month of April, the Wellington Community Fire District sponsored a Swiftwater 1 training class in which nine of our firefighters attended. Each member was outfitted with special swiftwater gear and now the department has thirteen trained swiftwater members. We have twenty-three firefighters trained to career level and three firefighters trained to the firefighter I level, with the balance of the roster trained to the Volunteer level. We currently have twenty-two EMT's and six First Responders. Also on our roster are certified Divers, Investigators, Inspectors, and Instructors. The Fire District Board of Trustees and I are very proud of our personnel for dedicating the many hours that they put in toward responses, training, meetings and countless hours away from their families.

Services Provided

Fire Prevention activities to children and adults, dive team, swiftwater, fire investigation, hazardous material response, fire suppression and public speaking to name a few. September 29, 2007 the firefighters sponsored a very successful food drive and donated all items collected to our local Well-Help organization. Additionally, our "Firefighters Chili Cook Off Team" donated nearly \$400 cash to Well-Help.

Without the support of the Wellington Community Fire District Board of Trustees and our taxpayers it would make it very difficult to maintain the training levels that we achieve and keep quality apparatus available for responding to the needs of our communities.

Robert J. Walker, Fire Chief

January 16, 2008

Evolution of Our Volunteer Fire Department and Joint Fire District

By Harrison Comstock

For many years it was financially impossible for the village or for any single township surrounding us to have its own fire department even though it was manned by an all volunteer staff or dedicated people. The answer came early on that the Village of Wellington and the Townships of Brighton, Huntington, Penfield, Pittsfield, and Wellington would go together to provide this important service.

The vehicles were based in the village since it was the central point and the volunteers were employed by business and industry located here. The Village paid for the operations and the purchase of equipment initially but semi-annually would submit a bill to each of the other participants for their prorated share. This system worked for many years and was accepted by all residents. During this period the trucks and equipment were rather limited

Brighton Township: Chris Stanfield Huntington Township: Walter Rollin Penfield Township: Richard Conrad

Pittsfield Township: Mark Diedrick (Vice President)

Wellington Township: Calvin Woods

Wellington Village: Fred Alspach (President)

Clerk: Vanya Hales

Legal Council: McCray, Muzilla, Smith, Meyers

and a working pumper could be purchased for a reasonable price as it was a fairly simple apparatus. Hose and ladders were added to an existing truck body painted red and sent out for service.

As time went on, however, the trucks became much more sophisticated, complicated and necessarily more expensive. The costs increased to such an extent that none of the participating bodies could afford them from their limited general funds.

It was then that our local chief, Bill Weber, and several others approached Congressman Don Pease who was at that time our representative to the Ohio General Assembly. Through all of their efforts a law was enacted to permit the formation of a Joint Fire District as a separate and distinct taxing authority with the tax base being that of all those who joined in.

Resolutions were adopted by all named governing bodies to form the Wellington Community Joint Fire District and I believe this was the first one formed in the State of Ohio. Each participating unit has a representative on the Board of Trustees of the Joint District and their duties and methods of operation were established by vote of that body in accordance with the new laws.

The District, however, had no money, no budget and little actual knowledge of what was to be expected of it. This was organized during the period of time when Federal Revenue Sharing was taking place and each body had some of these funds on hand to be used at their discretion. Each unit paid into the District \$1,000 from their Revenue Sharing money to provide some operating funds until such time as a formal budget could be adopted, and an annual budget prepared for the coming year. Once this latter was completed the Lorain County Auditor's office was contacted to determine what a proper levy amount would be required to provide the funds necessary. This levy question was then presented to all voters in all the member areas along with information on what the funds would be spent for in the next succeeding five year period.

One of the provisions of the new law regarding the proceeds of a levy raised in this manner allows the Board of Trustees to borrow a percentage of the revenue from that levy in anticipation of its receipt. As soon as the electorate gave its approval of the proposed levy a loan was obtained to provide the operating funds for the next succeeding period of time. This same procedure continues today with the presentation of a proposed levy each five years the District remains as a separate taxing body.

At the same time these governments were demanding more and more of our local personnel they were reducing the services of the State Fire Marshal and others for local problems, inspections and investigations. It also required many more hours of required training for all the personnel of the department and as the result we now have two paid people to carry out the every day operations while we still rely upon a dedicated staff of volunteers who devote many hundreds of hours to the work of the department and to their own skills improvement.

It takes a well organized and fully trained organization to do what these people do for us and I am sure we are all grateful for all they do and for the understanding employers of these persons who permit them to leave their employment when duty calls. The entire Wellington area can well be proud of the department it now has and of the service they provide, sometimes at the expense of missed suppers, kid's ball games and family picnics and otherwise quiet family times while they attend class to learn of new developments not only in fire fighting but in dealing with chemical spills and all the other situations declared to be emergencies.

Thomas R. Ropchock Award Recognizing the Wellington Firefighter of the Year

This award is presented to the firefighter who best exemplified the qualities of our mentor and friend, Captain Thomas R. Ropchock. The award has been chosen by the members of the Wellington Firefighter's Association, in recognition of leadership during training and on the fire ground; sacrifices of time away from family; devotion and commitment to the Fire District; and for setting a positive example for others to follow.

The 2007 Thomas R. Ropchock Firefighter of the Year award has been awarded to Firefighter Tim Polen. Tim has been a member of the department since September of 2001. Prior to serving here, Polen served for several years with the Ruggles-Troy Fire Department and has also served as an EMT-B with the Firelands Ambulance Service in New London.

Firefighter Polen has attained his Firefighter 2 certification and continues to hold his EMT-B card. Additionally, Tim has served as the department's Hazardous Materials Technician

for several years, representing the department on the Lorain County HazMat Team.

Firefighter Polen has been active in several committees and is a regular shift worker in the department's on-going station coverage program. Tim is one of the department's most valuable entry firefighters and has continued to improve his skills throughout his career.

Budget and Finance

The Wellington Fire District total budget for fiscal year 2006 was \$777,815. It is anticipated that for fiscal year 2008, the current 2.5 mill levy will generate \$672,000, and is the sole financial support for the district. Costing the owner of a \$150,000 home approximately \$115 annually, the levy funds are used for vehicle maintenance, salaries of full-time and part-time employees, building maintenance, and training.

| | 2004 | 2005 | 2006 | 2007 | 2008 (estimated) |
|-----------------------|-----------|-----------|-----------|-----------|---------------------|
| | | | | | |
| Revenue: | \$603,829 | \$648,767 | \$777,815 | \$699,781 | \$672,000 |
| Expenses: | \$555,003 | \$552,852 | \$566,440 | \$688,859 | \$651,270 |
| Workers Compensation: | \$9,043 | \$6,300 | \$10,000 | \$11,371 | \$11,300 |
| Utilities: | \$18,090 | \$20,710 | \$31,610 | \$23,808 | \$22,100 |
| Insurance: | \$12,014 | \$18,712 | \$20,235 | \$19,987 | \$26,000 |
| Salaries: | \$183,904 | \$192,942 | \$234,717 | \$230,005 | \$270,000 |
| Medical Insurance: | \$22,459 | \$25,556 | \$29,738 | \$39,854 | \$25,000 |
| Maintenance: | \$15,994 | \$32,793 | \$22,779 | \$26,709 | \$27,000 |
| Supplies: | \$33,852 | \$45,408 | \$76,559 | \$49,554 | \$33,000 |

2005 Levy Campaign

On May 3, 2005 residents in Village of Wellington, Brighton, Huntington, Penfield, Pittsfield and Wellington townships were asked and overwhelming passed a five-year, 2.50 mill replacement levy for the Wellington Community Fire District. This levy, as in the past, appeared on the ballot as a replacement issue. The board of trustees, which represent the village and each township, opted to replace the 2000 levy, which expired in December of 2005, with a reduced 2.5 mill levy. Figures from the Lorain County Auditor showed that the levy will cost the typical homeowner approximately \$20.64 extra each year.

What has been accomplished since 2000?

As promised in the 2000 levy promotion, the fire district hired its first full-time firefighter to join the fire chief. The addition of one firefighter during the daytime, allows for simple calls to be handled without requiring other firefighters to leave their primary jobs, handling of general office duties, equipment maintenance, fire prevention programs for local groups, and quicker responses to emergency calls. The average response time in 2000 was 8:17, whereas in 2006 the average response time was 6:43.

Also purchased with levy funds was a 2001 first-line pumper truck, which responds to 96% of all fire calls. Additionally, the 1980 Chevrolet step van was replaced by a safer, more efficient International rescue truck, allowing up to seven firefighters to dress, while being safely secured with seatbelts.

Through Chief Walker's tenure as fire chief, training has been a priority with the Wellington Fire District. Today's firefighters average nearly 135 hours of training annually.

| Fire Levy Su | ımmary |
|---------------------------|--------|
| Millage | 2.50 |
| Length | |
| Generates Annually | |
| Annual Cost for \$150,000 | |

Today's firefighters must be multi-skilled in not only fire suppression, but also, vehicle extrication, hazardous materials response, confined space rescue, water rescue, and emergency medical training. Of the 34 members on the roster, 26 firefighters have more training than the State of Ohio requires, with 19 having the highest possible training for a firefighter. Additionally, 19 firefighters are also Basic Emergency Medical Technicians, one is an Intermediate E.M.T., and three firefighters are also Paramedics. The department also has several water rescue divers, eleven fire safety inspectors, and two State Certified Fire Instructors.

Through these and many other efforts, the Wellington Fire District was able to lower insurance class ratings in 2002. The Village and a majority of the townships were lowered from an ISO Class 6 to an ISO Class 5. Communities with a 1-5 ISO rating make up only 26% of the rated communities in the United States. Your Fire Department is in very good company! The ISO designation is used by insurance companies to determine house insurance rates. The bottom line is the lower the number, the cheaper home insurance premiums.

What's next for the Fire District?

As our community grows, the fire district will continue to meet the needs of the residents. In an effort to continue moving forward, generated levy funds have purchased a new aerial ladder truck in 2006. This truck replaced a 30 year old, 1976 Snorkel truck and has greatly increased operational effectiveness at fires. Levy money will also be used for upgrading the facilities, continued training, and annual operating funds, which fund the two full-time personnel, as well as the salaries for our part-time employees.
